invertrac®

For **Back Pain Relief…**

Used for the relief of many common back pain conditions, the Invertrac is a comfortable, portable and light-weight "*bent-knee*" traction unit providing gentle, natural traction without stress to the ankles, knees or hip-joints.

Designed for in-home use, our unit is easy to use, folds flat for easy storage and is fully-adjustable to individual users. The Invertrac allows for daily inversion sessions in the comfort of your home.

Medical Warning: Please consult a medical professional prior to using Inversion therapy. A list of medical contraindications is available on our website.
